SIEMENS
Ingenuity for life

Frameless, Boundless

Bold design never follows the stream

Siemens DELTA[®]arina switch and socket

Bold design never follows the stream

Unconstrained by tradition, it maximizes aesthetics through minimalism.

Boundless

Frameless Design
The frameless design achieves a distinctive simplicity.

Invisible

Subtle LED
The LED glows subtly when the switch is off, and fades away when turned on.

Sleek

Highly Polished
The high-grade PC materials enhanced a highly polished surface, sleek like the surface of a lacquered-piano.

Bold design never follows the stream

Pursuing perfection in every detail, exuding comfort and care.

Convenient

State-of-the-art termination design
A special termination design can conveniently fit a 1-4 sq mm wire. Installation has never been so easy.

Hassle-free

Multiple ergonomic designs
Fine details including dual layered faceplates and wide-spaced sockets with USB, making them safe and convenient for users.

Stand out from the stream

Great design plots its own course, presenting state of art in modern interior design.
Aesthetic demonstrated through bold design.
